

Butler Township Municipal Outreach

Background

Adams County Comprehensive Plan

The current County Comprehensive Plan was adopted in 1991 and updated in 1998, 2001, and 2010. The current Comprehensive Plan outlines many goals and objectives related to historic preservation and heritage related planning, some specifically related to assisting municipalities

The vision for the plan update at this stage is to encompass preserving, protecting, and promoting historic resources throughout the entirety of the County.

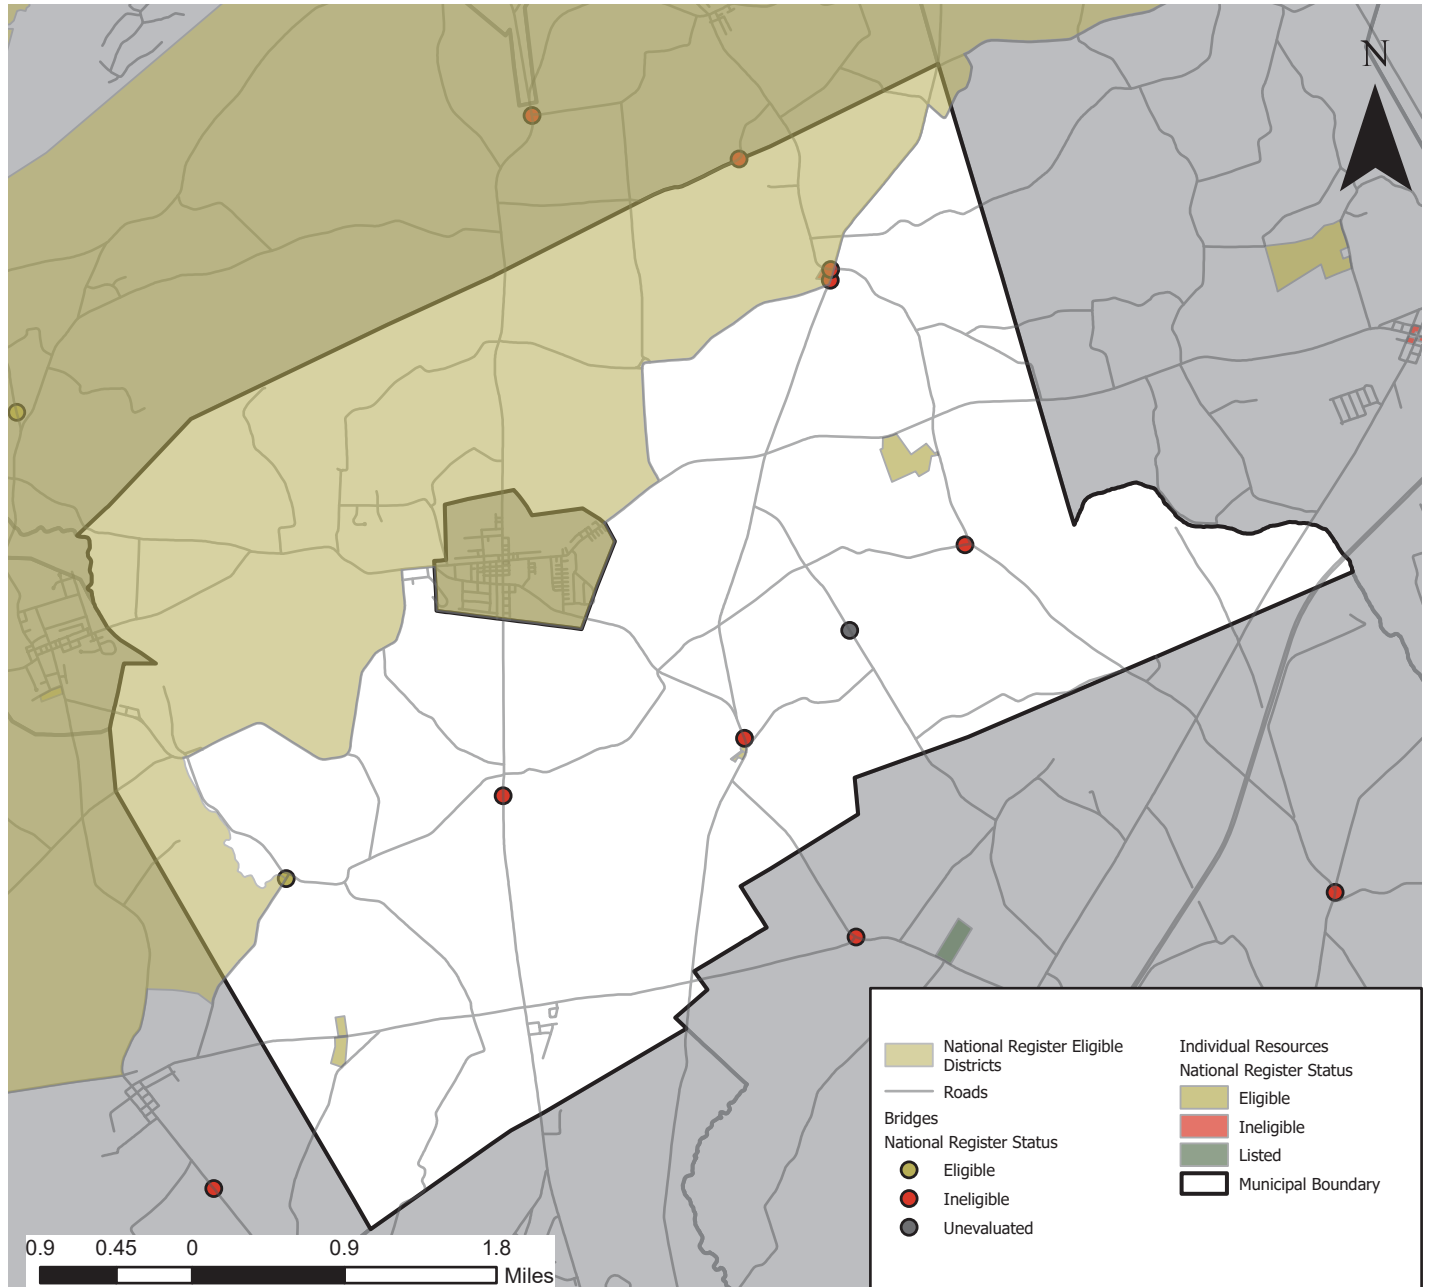

Purpose of Meeting

- Discuss your thoughts/concerns regarding historic resources in your municipality
 - What types of resources are most important to residents here? Are these identified on the provided map?
 - What tools (if any) do you currently have in place to ensure that these resources are protected?
 - What types of programs might your municipality be interested that would assist in protecting and/or promoting these resources? (e.g., Interpretive signage, tours, National or Local Register of Historic Places, other methods)
- How can the County support planning for historic resources in your municipality?
 - How can we support promoting and protecting those resources?

Refer to the map on next page to see the location of some identified historic resources in your municipality. The map provided shows ONLY those resources that have been listed, determined eligible, or determined ineligible for the National Register of Historic Places. The map does NOT show resources that have simply been documented.
